

25 YEAR RE-REVIEW

## JOINT ATOMIC ENERGY INTELLIGENCE COMMITTEE

30 June 1958

MEMORANDUM FOR: Chairman  
Intelligence Advisory Committee

SUBJECT: Priority National Atomic Energy  
(Annex D) Intelligence Objectives - Agenda Item 3,  
IAC Meeting of 1 July 1958

*June 1958  
[Signature]*

1. This memorandum is for information only.
2. JAEIC has submitted as Annex D to DCID 1/3, Priority Atomic Energy Intelligence Objectives in general conformity with those submitted by EIC, SEC, and GMIC. This is the first time such a separate statement of objectives has been prepared in the atomic energy field, and it is believed such a statement will assist JAEIC's planning activities considerably.
3. The Air Force member of JAEIC objected to the inclusion of the first three First Priority Objectives now in the present draft which deal with deployment of nuclear weapons, nuclear stockpile operations, and nuclear weapons storage site locations and characteristics, on the basis this subject was beyond the immediate purview of JAEIC. It was the belief of the other members that this is an important subject that is "falling between stools" from an interagency standpoint, and a vital part of any overall statement of atomic energy intelligence objectives. The inclusion of this subject in the JAEIC charter is a separate matter which is being considered currently by the Committee in connection with a review of its charter. Its inclusion is being urged by all Committee members except the Air Force.

**SUBJECT:** Priority National Atomic Energy Intelligence  
Objectives - Agenda Item 3, IAC Meeting of  
1 July 1958

4. It is not known if General Walsh will raise this question in the IAC. If it comes up, we strongly recommend Soviet nuclear weapons stockpile activities be included in subject priority objectives in the interest of providing a more complete or "overall" statement in this field.

Acting Chairman
