MEMORANDUM FOR THE RECORD

Morning Meeting of 1 September 1965

25X1 [] of OCI provided a background briefing on Ghana.

DDI displayed map brochures covering Southeast Asia in response to an earlier DCI request. There was a discussion of the distribution to be given these brochures. The DCI said he would give copies to the President.

R. J. Smith noted that NPIC had uncovered a fully equipped and operational SAM site at the new air base at Ningming in Southwest China.

R. J. Smith noted that a major clash between the Indians and Pakistanis may be in the offing in Kashmir. Pakistani tanks moved in this morning. DDP noted his concern that the ChiComs may stir up trouble [] 25X1

25X1 Smith tabled copies of the monthly graph [] He 25X1

25X1 There was a discussion of the report that the Chinese intend to provide a nuclear "bomb" for detonation in Indonesia. OCI tends to be dubious of the report. [] 25X1

25X1 [] At DCI inquiry, DDP said that we are in touch with State Department in connection with counter plans.

25X1 DDS mentioned the quick reaction capability of the Agency to provide [] 25X1

At DCI request, deSilva noted that there was nothing new in on [] in Vietnam.

Warner noted that no Congressional meetings are on the horizon since most of the principals are tied up on other legislative matters. Warner and DDP reported on the meeting yesterday with Senator Dodd on Congo matters.

Bross noted that he and deSilva would meet with Secretary Vance tomorrow to discuss various aspects of the Vietnam situation including the Agency's role there. Bross invited suggestions for topics which might be raised with Vance at this meeting. The DCI suggested he refer to [] accession to the DD/NRO position, and the Executive Director suggested that Vance be alerted to the forthcoming BOB letter to the DCI and SecDef asking for a joint assessment of the photographic interpretation effort.

DDS&T noted that a civilian, [] has for the first time been named to head the production component at NSA. It was also noted that [] is highly acceptable to this Agency in this post.

DDS&T referred to a Soviet movie on missiles which has just been released and which has provided us with the first photograph of the SS-6, the workhorse of the Soviet space program.

DDS&T noted the Soviet announcement that their Cosmos satellites have monitored U.S. nuclear tests. It was noted that we have long known [] that this was being done.

[]

[]

Executive Director noted that the long range plan for CIA was completed yesterday and delivered by Kirkpatrick to the DCI. He suggested that all hands read the plan and comment as appropriate. (See Action 2)
