

February 11, 1952

AT Dear [redacted]

I greatly appreciate your letter of January 25, 1952 with the memorandum from my old friend, [redacted] of [redacted]. It was good to get this report and I am asking some of our technical people here to give it careful study and let me have their comments.

AT We look back upon your visit here with very pleasant memories and I hope that if I get to Europe this summer I will be able to see you [redacted].

Meanwhile, I had the pleasure of an interesting talk with our travelling friend who had been to Australia for the tennis matches and gained his impressions of various parts of the world.

Sincerely yours,

AMD:hea
