MEMORANDUM FOR: Members, Intelligence Definitions
                  Working Group

FROM: STAT

SUBJECT: Revised List of Candidate Terms

        1. A summary of the second meeting of the Intelligence
Definitions Working Group is attached for your information.

        2. The candidate list of terms for inclusion in the
glossary has been revised to reflect decisions taken at our
last meeting. I hope we can finalize the list at our next
meeting and get on with compilation of the actual definitions.
As indicated in paragraph 4 of the minutes, please be prepared
to submit and discuss whatever intelligence acronyms you feel
should be included in the glossary.

        3. The next meeting of the Working Group is scheduled
for 0930, Wednesday, 12 October 1977 at CHB, Room BS05.

                                                                  STAT

SECOND MEETING OF THE INTELLIGENCE
DEFINITIONS WORKING GROUP

4 October 1977

1. The Chairman opened the meeting by thanking the participants for their submissions of candidate topics to be considered for inclusion in the glossary of intelligence terms. He then proceeded to discuss an introductory paragraph which emphasizes the fact that the glossary is not intended to restrict intelligence agencies from the use of terms in different contexts when good and sufficient reason exists. The wording of such a paragraph was provided to the members and will be discussed further at subsequent meetings.

2. The NSA representative introduced [   ] **STAT** who provided an insightful briefing on NSA's ongoing "Standardization of SIGINT Terminology" project. The briefing included a description of past and current NSA glossaries and the methodologies used in their preparation. [   ] **STAT** answered questions at the conclusion of the briefing and distributed pertinent handouts for the group's retention.

STAT   3. [   ] distributed a list of 26 tentative definitions of intelligence terms which had been requested by Senator Huddleston of the Senate Select Committee on Intelligence.

4. Attention then focused on a consolidated list of 217 terms submitted by the gruop as candidates for inclusion in the glossary. The group reviewed approximately half of the list with a view toward eliminating duplicative terms and adding certain others. The remainder of the list will be considered at the next meeting. The members were also asked to submit a list of intelligence acronyms at the next meeting, which is scheduled for 0930, Wednesday, 12 October at CHB, Room BS05.
