CONFIDENTIAL

IC 75-3726

23 OCT 1975

MEMORANDUM FOR: UNITED STATES INTELLIGENCE BOARD
                INTELLIGENCE RESOURCES ADVISORY COMMITTEE

SUBJECT   : Release of Intelligence Resources Data

REFERENCE   : Consolidated Intelligence Resources
                 Information System (CIRIS) Data
                 Submission Instructions, February 1975

1. Since requests for detailed intelligence resources information have become more frequent, it is appropriate to reiterate the policy for access to, and release of, information contained in the CIRIS data base.

2. NFIP program managers may request formatted information on their own program based on their data submission to CIRIS. This includes current or historical, detailed or aggregated, machine coded or clear, tape or printout, in any feasible tabular or graphic format. Requests will be handled as expeditiously as possible within ICS machine and manpower resources.

3. Requests for program aggregate information, e.g., General Defense Intelligence Program or Central Intelligence Agency Program totals, will be honored on a need-to-know basis.

4. Requests for information below the program level from users other than the originators of the data will not be honored without specific release approval being secured from the originator(s) of the data. If approval is given, the program manager concerned will be provided copies of each output.
