

CONFIDENTIAL

DCI/IC 75-1821

2 December 1975

MEMORANDUM FOR: Deputy Director for Operations

SUBJECT : OTR Support to IC Staff Training Plans

25X1 REFERENCE : DDO memo [] dated 4 Nov 75

1. Sam Wilson has advised me that he discussed with you your concerns, as expressed in reference, about IC Staff training plans causing Agency over-extension into the affairs of other government departments. I simply want to add that I, too, agree with the basic thought you advanced. It was never our intention that the Agency should do any of this training itself, or anything else that would infringe upon State or FSI prerogatives. My original memo may have been misleading on this point.

2. At this juncture, the IC Staff is acting in its interdepartmental role in encouraging a review of new ideas for training for the community's overt collectors. These initiatives are being developed by the Human Resources Committee Orientation and Training Advisory Group in which State plays a key role. If State accepts and implements these ideas or concepts, they will be implemented only by that Department, by its personnel, or by contract arrangements.

3. In this connection, you may wish to consider proposing that the DDO Training Officer be the CIA member of the Human Resources Committee Orientation and Training Advisory Group. I understand that CIA has not yet selected its representative for this HRC subgroup. Such DDO representation seems appropriate from the Agency viewpoint in any case, but it could also serve to support your opposition to Agency involvement in other departments' affairs which I believe we all share.
