CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

OFFICE OF THE DIRECTOR

22 March 1973

MEMORANDUM FOR: Brigadier General Brent Scowcroft
U.S. Air Force
The White House

SUBJECT : Communist Violations of Vietnam
Settlement Agreement

1. This morning we sent down to you a brief cabled report from USSAG that a new occupied SA-2 SAM site had been observed in 21 March photography of the Khe Sanh area. We have now received the Initial Photographic Interpretation Report (IPIR) from the field, and it appears that the new SA-2 site was first observed in photography of 19 March rather than 21 March.

2. We have also checked earlier photography of the same area. The totality of evidence available in Washington shows that the new SA-2 site was definitely not there as of 10 March. Therefore, the site was constructed and its equipment installed sometime between the 10th and 19th of March.
