WAR 2/199

MEMORANDUM FOR: DEPUTY DIRECTOR, PLANS

25X1

SUBJECT:

It is my understanding that  is working under the supervision of General McClure and that General McClure leans on him rather heavily for certain aspects of the unconventional warfare program. In view of the fact that General McClure has only recently stated to both of us that he is desperately short of qualified personnel, I believe it would be almost certain to create difficulties if we were to take any action leading to the transfer of  to CIA. Moreover, my own analysis of recent proposals made by  coupled with the majority view of those who worked with him in OSS during the war, leads me to the conclusion that he would be difficult for us to assimilate. I should like to discuss the latter aspects of this matter orally with you at greater length.\*

MEMORANDUM FOR: Assistant Director for Policy Coordination  
FROM : Deputy Director, Plans  
SUBJECT :

25X

Please see attached memorandum with regard to .  
 I had understood that he was working with General McClure and that there was little likelihood that we could get him away from McClure without causing ill-feeling in that quarter. Please let me have your comments.
