

NAVY DEPARTMENT

OFFICE OF THE CHIEF OF NAVAL OPERATIONS

WASHINGTON 25, D. C.

SECRET

31 December 1946

From: Chief of Naval Intelligence
To : Director of Central Intelligence
Subject: Collection Plan to Implement National Intelligence Requirements for China.

1. It is recommended that the following changes be made in subject draft collection plan:

Paragraph 3 (c), line 2 - Insert "land" before "traffic" and delete "of military significance".

Paragraph 4 (a), line 2 - Following "naval" insert ", Marine and Naval Air".

line 3 - Change "or" to "and".

line 4 - Change "and" to "or".

Paragraph 4 (b), line 2 - Insert "sea" before "traffic" and delete "of naval significance".

Paragraph 8, line 4 - Substitute "and other appropriate collection agencies" for "who will be responsible for insuring appropriate interagency distribution."

2. It is believed that all traffic by sea or land between Communist controlled Shantung, Manchuria and Korea should be watched. Even though there may be no Chinese or Soviet Marine and Naval Air Forces in this area at this time it is believed that provisions should be made for covering the reporting of any such forces which may appear. It is believed to be unwise to change, at this time, the present system of disseminating reports received by parent agencies in Washington.

NAVY review(s) completed.
