INFORMATION REPORT

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

PREPARED AND DISSEMINATED BY
CENTRAL INTELLIGENCE AGENCY

COUNTRY
USSR

SUBJECT
Bibliography on Microwave Propagation and Antenna Theory

DATE DISTRIBUTED 25X1
7 March 1957
NO. OF PAGES 1 NO. OF ENCLS. 2
SUPPLEMENT TO REPORT # 25X1

THIS IS UNEVALUATED INFORMATION

[redacted] 15-page photocopy of a bibliography in English of Soviet papers of interest to workers in microwave propagation and antenna theory [redacted]

25X1
25X1

The bibliography is an alphabetical list of 158 Soviet authors and the English titles and dates of publication for about 450 of their publications. It covers Soviet papers in this field from the early 1930's to about May 1956. UNCLASSIFIED/

DISTRIBUTION	STATE	ARMY	NAVY	AIR					
--------------	-------	------	------	-----	--	--	--	--	--

NOFORN **NO DISSEM ABROAD** **LIMITED**

LIMITED: Dissemination limited to full-time employees of CIA, AEC and FBI; and, within State and Defense, to the intelligence components, other offices producing NIS elements, and higher echelons with their immediate supporting staffs. Not to be disseminated to consultants, external projects or reserve personnel on short term active duty (excepting individuals who are normally full-time employees of CIA, AEC, FBI, State or Defense) unless the written permission of the originating office has been obtained through the Assistant Director for Central Reference, CIA.

5. ... the solution of non-stationary boundary problems of electrodynamics. IAN 80, 23-24, 1961
6. ... Electromagnetic wave propagation in ionized magneto-active media. Vestnik elektrotehnicheskogo ..., 1960
7. ... Propagation of electromagnetic waves in magneto-active ionized media. Ukr. Fiz. Zh., 1961-1962, 1961
8. ... Wave reflection from an inhomogeneous ionized layer. IAN (Ser. Fiz.) 4, 4-9, 1960
9. ... Evaluation of the intensity of a wave diffracted from a dielectric sphere. IAN (Ser. Fiz.), 1960-1961, 1960
