MILITARY

Soviet Army Rail Transport at MULLROSE

25X1

SECRET

I. The following transports were noted at the Tank Repair Workshops and Spares Depot at MULLROSE [redacted] and at the MIKSDORF POL Depot. The equipment dispatched by the Tank Repair Workshops is either brand new equipment received from workshops in the D.D.R. or from RUSCIA, or equipment that has been reconditioned. Equipment received at this workshops is from units of the Soviet Army and is either reconditioned or for scrap. The MULLROSE depot, therefore, distributes new supplies to units as well as repairing and reconditioning worn and broken equipment.
