UBJECT	Road Data DATE DISTR. 27 May 64	7, '- - -
	NO. PAGES 2	50X1-HU
ATE OF	REFERENCES	
ATE OF IFO. ACE & ATE ACQ.		
	THIS IS UNEVALUATED INFORMATION	50X1-HUM
1.	As of October 1961, a hard surfaced, all weather road (924) runs from Chelyabinsk southward to Troitsk and another hard surfaced al weather road (924) runs from Chelyabinsk westward to Miass and the returns from Miass and runs eastward to Kichigino. The same type of a hard surfaced road (924) runs from Chelyabinsk southeast to Lebedevka and then returns westward to Yemanzhelinska.	1 n
2.	All the above roads are over two lanes in width and are macadam surfaced. The roads are well drained and have a solid roadbed. The curves are fairly shallow. These all weather roads are fairly well maintained and there is much heavy truck traffic, and other vehicles on them because of the industries in and near Chelyabinsk

foundation. The dirt roads also run through shallow hills and are mostly maintained by townspeople and villagers. Whenever the dirt roads become potholed or futted in various areas they are leveled with old-fashioned rakes and shovels. Occasionally an old-fashioned steam roller is brought in to level the holes.

4. Because of this type of maintenance the dirt roads are able to absorb heavy usage during heavy rains or during the spring thaw.
