**MEMORANDUM FOR: Deputy Director for Support**

**Bob:**

It seems to me that it would probably be very helpful for Agency officers to have at hand a ready reference on approval authorities. I would think that this should include all the various projects, proposals, and recommendations which require submission to the Office of the Director or to a Deputy Director for approval. It should note whether approvals may or may not be delegated, and, if they may be, to whom.

May I have your reaction to this suggestion. If you agree that it is worthwhile, please undertake the action.
