2. The scheduled reports are intended to provide required coverage of subject categories and/or areas in terse presentation style for ready reference and easy filing.

Extent of coverage and selection of information for inclusion in the reports will vary by category and country depending on current emphasis of requirements, program guidance received from consumers, availability of manpower and source material.

3. Generally, the presentation of items will be in the form of factual precis, abstracts, or summaries of the content of articles as appropriate from the information contained in the source materials. (See Tab A "Reporting Program of FDD/OC")

FDD comment, inspired by observation, comparison, special knowledge of subject, etc., will be indicated clearly as "Comment" enclosed in brackets, e.g., [Comment: This notice supersedes nine previous FDD notices.]

4. Material for scheduled reports will represent the contribution and cooperation of all branches of the division.

Branch chiefs will appoint "coordinators" as the officers responsible for the collection of contributions for the respective areas of reporting; for checking material for coherency, for preventing duplication, for proper compilation before transmittal of material to the editors, and for meeting the publication schedule set for each report.

The coordinator will be the point of reference for editorial questions or revisions.

(Coordinators appointed for the FDD scheduled reports are listed in Tab A. Branch chiefs will designate alternates as required.)
