THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS REPORT IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1X

1. The Red Army has two large central supply depots in the People's Republic (DDR). One is at Frankfurt an der Oder; the other, at Satzkorn, near Berlin. The Frankfurt depot is used mainly for food and subsistence; the Satzkorn depot for equipment.
2. Rationing of the separate troop stations is done in this way: the Nahrungsmittel Werke Köthen, for example, supplies flour and other subsistence items to the Frankfurt depot, where the material is reloaded and distributed to the garrisons in the Lausitz, principally Görlitz, Bautzen, Königsbrück and Dresden. In August 1953 the Köthen works delivered 768 tons of flour and other foodstuffs to Frankfurt.
3. The Satzkorn depot has three sub depots: a depot for communications equipment in Berlin-Köpenick, a medical branch at Dessau-Rosslau, and a depot for artillery spare parts on Wienerstrasse in Zeitz.
4. The medical supply depot gets its supplies from Soviet-German pharmaceutical firms, chiefly the following: Schering, in East Berlin; the Jenapharm works at Jena and Erfurt; the Deutschen Serumwerk Dessau; Fahlberg & List of Magdeburg, and Heyden of Dresden.
5. Satzkorn has large special rooms in which so-called decontamination material is stored. For about two months, Red Army trucks have been hauling gas masks away. These masks were almost all stored within the past year. They are now being re-issued to the troops. These are masks with the normal filter and the long tube. The new gas mask has a filter about 15 cm long and 12 cm thick, fastened directly to the mouth valve. The filter has a special hidden heat-sensitive layer. On this account the filters are stored in unheated rooms. It is estimated that about 25,000 gas masks and filters are stored at Satzkorn.
