MEMORANDUM FOR: Project Comptroller

VIA : Director of Development and Procurement

SUBJECT : Authorization to Purchase Crystal Holders for Test Purposes and Possible Use of Same With System VI

25X1A

1. [redacted] has advised of a new crystal holder which has shown exceptional promise. It is manufactured by the American Electronics Laboratories and costs approximately \$75.00 per unit. One borrowed unit from the Naval Research Laboratory has undergone Agency tests, but must now be returned. The Contractor can make several units available to [redacted] within the next week or so. It is intended that one unit be retained for test at Headquarters and one sent to the Ramo-Wooldridge Corporation for additional testing. If it were later decided to use these crystal holders in System VI, further purchases would be made by the Contractor under Contract
