MEMORANDUM FOR RECORD

25X1A

SUBJECT: Visit with [redacted] on 11 October 1956

REFERENCE: SAPC-9698, dated 2 October 1956. Subject: Expediting Assistance Required for Contract A-101 - R-W

25X1A

1. Due to the decision on the part of [redacted] and the writer that it was necessary to be sure of the security aspects involved before obtaining five sets of the APR-9 and APR-13 tuning units needed for System Four, I visited [redacted] of the Bureau of Aeronautics. [redacted] were both unavailable, making it necessary to go back to [redacted]

2. The security point in question rises from the second sentence of reference memorandum. It was not clear whether [redacted] had notified [redacted] and Navy Stocks in Philadelphia that these units should be sold to the Ramo-Wooldridge Corporation without question or if [redacted] was awaiting our final request for such a notification. [redacted] understood the problem immediately and was very helpful, saying that he would provide within the next few days the name and telephone number of a person at each location that the Ramo-Wooldridge Corporation could contact. He was asked to give the information to either the writer or [redacted] by telephone when he had acquired it.*

3. [redacted] immediately upon the opening of the conversation, said that I might have taken the problem to [redacted] but upon finding that [redacted] was not available, then said that it was completely correct that I would have brought it to him. He asked if I could find time to brief [redacted] at my earliest convenience on the technical details of the Project.
