1. Attached is a copy of IITEK's proposal to furnish a Handbook for the Rectifier Printer and Spare Parts for the Printer and the two different types of Viewers delivered under Contract No. EB-300.

2. It is suggested that this be coordinated with the Customers who received the above equipment and all requirements, if any, be combined for our procurement. It is assumed that if your Center or the other Customers have a requirement appropriate arrangements with the DFD Comptroller will be made for transfer of necessary funds. I would appreciate a reply as soon as practicable.
