[REDACTED] Our intent was to place a contract with [REDACTED] for the maintenance of this aircraft. The contract would have been formally executed on 30 June 1961.

2. For various reasons [REDACTED] was unable to perform the services required and although every effort was made to obligate this entire release in FY-1961 it was impossible to do so. Subsequently the Agency has been maintaining the C-54 with obligations, expenditures and property issuances occurring on a routine piecemeal basis.

3. Since the Special Release is being used for precisely the purpose intended, it is requested that you obtain approval from the Bureau of the Budget of our past and continued use of this [REDACTED] without fiscal year restriction.
