

OSA-0757-63

Copy 4

1 March 1963

MEMORANDUM FOR: Deputy Assistant Director for Special Activities

SUBJECT: Forecast Weather Over Cuba and Missions
Status, 5 September - 14 October 1962

25X1

1. Attached is product of [redacted] covering Cuba weather over the period cited above.

2. Paragraph 4, as stated, is not acceptable since it can be misconstrued to mean the weather was bad over Cuba for thirty of the forty days. In actuality, the entire island was forecast to be cloud-covered (CAT III through V) on nine of the forty days.

25X1

3. I recommended to [redacted] at 1645 EST this date the following modification: Revise last sentence to read:

Between 5 September and 14 October, poor to bad weather prevailed over specific target areas in Cuba for thirty of the forty days. Poor to bad weather prevailed over all of Cuba, thereby nullifying any possibility of photo coverage for nine of the forty days.

25X1
