REF ID: A66103

16 AUG 1963

MEMORANDUM FOR: Chief, Security Division, OSA

SUBJECT: Expeditions Clearances - Military Details

1. Previously we had submitted to [] two listings of military details for whom there was a critical need at [] that listing which is in your possession dealt with a group of 12 individuals who had already been to Headquarters for processing and a listing of 34 for whom Headquarters processing dates had been established. This latter group were to be in Headquarters over the period 20 July through 9 September. We are presently checking these listings to establish the outcome of this new rapid Headquarters processing procedure.

2. It is requested that the name of [] be incorporated in this rapid processing procedure and passed to the Office of Security. He will be in Headquarters on 10 September 1963 for Headquarters processing.

3. Although it is recognized that the instant procedures have been primarily geared to support the naming of [] we find problems in [] as a result of a lack of business and a recent security bust. Therefore, it is queried whether you could be in a position to apply the new rapid procedures to the Idealist program also. The case in point is [] who will be in Headquarters for processing on 16 September 1963. In order to reach our naming objective, he should be in place at Detachment II by 20 October 1963.

4. Thank you for your support on this matter.
