2. [redacted] LIAISON Spoke to Chuck Snodgrass, on the staff of the House Appropriations Subcommittee on Defense, concerning the new State/CIA Diplomatic Telecommunications Service agreement and in response to his request provided him several background documents. His general view is that the new agreement looks very fine but he will be turning it over to the Investigations Group, which is more familiar with the background, for their evaluation. He urged us to get the approved agreement to the Hill as soon as possible and no later than tomorrow for it to have impact on the appropriations process.

4. [redacted] LIAISON Accompanied [redacted] DDS&T Security Officer, to a meeting with Duke Short, Senate Judiciary Committee staff, regarding a security-related incident [redacted] Short said a friend who works in Building [redacted] observed a Russian who works for the Smithsonian Institute on the second floor of Building [redacted] taking a small canister of film out of a trash can on the third floor of that building. This is adjacent to a CIA office. The man who observed this then looked in the same trash can himself and found four pictures of the Tulsa-Oklahoma City area. Short called Security on this matter which notified the Agency. [redacted] indicated the photos were of no interest to CIA and were not classified from our perspective. He, therefore, said the problem would be turned back to the Navy.
