Brothers and sisters in the area temporarily given up!

The strong volunteers units of the heroic Chinese people have joined our battle against the savage American aggressors. These Chinese volunteers are now fighting the American aggressors in order to help the Korean people and to defend their homes and country. The Chinese volunteers and our Inmingun (People's Army) have checked the advance of the American army and Syngman Rhee's puppet army throughout the entire front.

The enemy's forces were surrounded, expelled, or destroyed by our forces at Wonchong, Huich'on, Unsan, Kochang, T'aech'on, Chongju, Sench'on, Kusong, etc. The enemy has retreated to the south of the Ch'ongch'on Kang (River). Our units pursued the retreating enemy and started a mopping-up campaign south of the Ch'ongch'on Kang.

The conditions of the battle are now decisively in our favor. A heroic battle in which our Inmingun will revenge and annihilate the whole enemy is now shaping up.

Our beloved compatriots!

The fact that the Chinese volunteers, who are well-seasoned fighters after having gone through long revolutionary struggles, joined us with their enormous manpower and resources assures us a decisive victory. The spirit of our heroic Inmingun has been boosted, and our fighting strength has been increased enormously.

Our people who long for freedom and independence of our Fatherland, rise ~~in~~ under the banner of the People's Republic with an ever more
