- 7. The factory could easily be converted to produce armaments (about 24 nours).
- 8. The principal manufacturing of the Krasnyy Excavator Plant consisted of road building machinery; machinery for building construction, such as scrapers, bulldozers, and carryalls; and mechanical carriers for factory transportation, such as lift and fork trucks, electrical hand trucks, and mechanical conveyors.
- 9. in this area (1938), the excavator plant worked 24 hours a day, employing over 10 thousand persons. Machinery manufactured at this place was shipped eastward but to what destination I do not know.
