ORIGIN 25X1X6 [REDACTED]

1. Of the total monthly production of gasoline at the Leuna works at Merseburg (D91), 80% is sent by the SMA to the so-called "Vistula Line" in Poland. Behind the "Vistula Line" there are said to be very large dumps in which the Leuna gasoline is stored.

2. It is said that this gasoline is not sent to the USSR but held in reserve in these dumps for the use of the Soviet armed forces in case of war against the western powers.
