INFO. [REDACTED]

SUBJECT: Trieste Commercial Enterprise, S.A.Z.I.

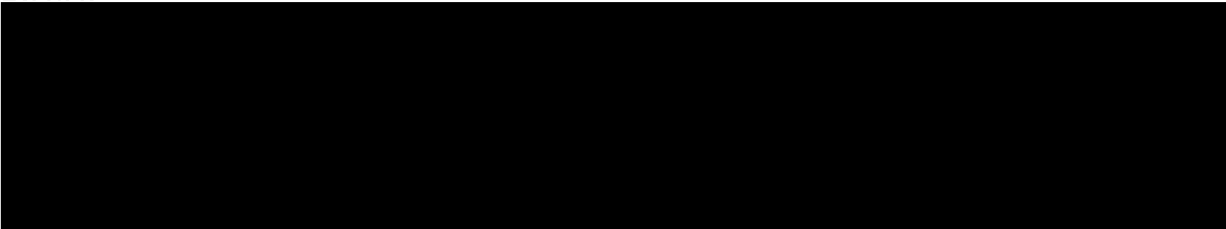

DIST. 26 February 1947

PAGES

SUPPLEMENT

25X1A6a

ORIGIN
25X1X6

1. A new firm called the Societa per Azioni Zona Industriale (SAZI) is reported to have been formed in Trieste. The purpose of the organization, which allegedly has a capital of 2,000,000 lire and is located at 9 Via S. Nicolo, Trieste, is to buy and sell land on which industrial plants and harbor installations will be built. The SAZI will also carry out commercial, industrial or real estate transactions connected with the above program and may take part in whatever industry is started in the area.
2. The area in question is situated Southeast of Trieste in the zones called Zaula and Noghere which will be divided into districts to be known as Zone A and Zone B. Zone A will be built up as an industrial section with building docks, canals, railroad junctions, roads, etc. while Zone B will be reserved for an airport with modern equipment which will be the only commercial airport in the Free State.
3. It is believed that the SAZI may be a front for the American Engineering Company which is reported to be a part of the Giannini interests. It is also said that contracts are being worked out with a large Brazilian Packing Company and with two large American industrial concerns, possibly General Motors and General Electric.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 13 October 1972 from the Director of Central Intelligence to the Archivist of the United States.
