PAGES
SUPPLEMENT

25X1X6

1. Two new mines are being developed about two kilometers northwest of Horní Slavkov (Schlaggenwald), at approximately P6184. Since Russians have been observed in this area, it is presumed that the mines may contain pitchblende.
2. Czechoslovak Army officers now employed on training problems at the military installations around Mariánské Lázně (Marienbad, P56) are being subjected to extremely strict security controls.

~~This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50, U.S.C. 31 and 32, as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.~~

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 1 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
