The officials of Communist Organization of Athens have allegedly received an order from the Politburo of KKE, which was addressed to the Party organization throughout Greece. The order defines the duty of the Office of Propaganda and Enlightenment (Camouflaged Office).

1. "In conjunction with the operations of the Democratic Army, take care in every city, town, village, and hamlet to eliminate every thing which hinders or opposes our struggle.
2. "In addition to this task, see to it that so far as possible the enemy becomes weary, not only at the front but also behind the lines, in order that the enemy will have failures everywhere. Whenever this happens the enemy is abused not only at home but abroad, and then the capitalist invader Yankees will understand that whatever aid they give to the local monarcho-fascists, their fight is lost, and complete victory belongs to the people.
3. "In connection with this and with the political question (which our organizations have set forth so well abroad) our Offices must take care to handle this in the best way among all classes of people. Thus the people will be convinced that the political leaders are indifferent to the struggle which is taking place between brothers and are interested only in the dollars of American capitalists, and they will believe that the struggle being waged by the Democratic Army and KKE is an honorable and just battle for liberty."
