LLEGIB		al rent for the landowner's feasts, and requiring free labor service should cease. The yield of all subsidiary crops belongs entirely to the tiller of the soil.
	9.	The government will give relief to widows, widowers, orphans, and those unable to work, when the rent collected from their land after the reduction fails to maintain their livelihood.
	10.	After the reductions are made, a "committee of just rents" will be organized under the direction of the government and the Peasants Association. The committee will fix rents according to the cir- cumstances of the local community. The landowner and tenant will sign new rental contracts in accordance with the fixed standard.
	11.	Because of frequent crop failures in recent years, peasants have been unable to meet their rental charges. Rent owed for periods prior to 1948 should therefore be cancelled.
	12.	The interest charge on old debts should not exceed the annual rate of 30%. If on old debts the debtor has paid interest equal to or exceeding 100% of the capital, only the capital should be paid back. If the debtor has paid interest of 200% or over of the capital, no further payment of interest or capital should be paid. When old debts are cleared, mortgaged land and property should revert to the debtor.
	13.	All unreasonable contracts and loan agreements should be cancelled, and new contracts and agreements should be drawn up under the direction of the new government and the Peasants Association.
	14.	All forms of usury and compound interest agrangements should be cancelled.
	15.	Cases of indebtedness incurred in the transaction of business or trans- fer of commodities will be settled by the Peoples' Government outside of these regulations.
	16.	Attempts to use special influence to impede the reduction of rent and interest will be punished by the government and the Peasants Association.
	17.	
	18.	In the case of forcible occupation of peasants' land by local gentry, the former can request the government for an investigation, and if the accusation is substantiated, the land may be taken back without payment.
	19.	Persons found guilty by the hsien government or higher authority of counter-revolutionary activity will be subject to land confiscation. Confiscated land will be redistributed to landless and poor peasents, but a portion will be reserved for relatives of the original owner who were not involved in his criminal practices.
GIB	20.	Clan land, village land, public land and school land should be adminis- tered by a new committee organized democratically by the clan or community. All forms of monopoly in the administration of these
*-		
	1	the hsien government can be requested to mediate or arotorate.
	22.	These regulations are temporary. When higher authorities promulgate new regulations to be applied nationally, these regulations will be amended or abolished.
