25X1X6

1. One biplane and fifty-eight fighters of the following type were parked at the DESSAU (M 52/E 06) airfield:

Low-wing monoplane, radial engine, wings and rudder assembly edged, landing gear retracted inward.

2. There was intensive flying, either stunt or formation flying in groups of up to three planes. The truck B 7-82-85 and 25X1A2g trucks of the B 7-82-xx series moved toward the field.

Comment:

The report confirms that the field was occupied by fighter units equipped with LA-9s. According to previous reports, it is assumed that two fighter regiments previously stationed in BRANDIS are now in DESSAU. The reported motor vehicle number supports this assumption.
