REMARKS

RETURN TO CIA LIBRARY

The ORANIENBURG (N 53/Z 67) airfield kaserne area was almost completely evacuated. Individual soldiers were sometimes seen. Nine single-engine aircraft covered with tarpaulins, were standing in front of the hangar. There was no flying, and almost no personnel were seen at the field.

Comment:

Report confirms that the field is occupied by a fighter unit. This is probably the fighter regiment stationed in STENDAL up to early September 1949. The numerical designation of the regiment is unknown. From the information that the kaserne area is almost completely evacuated it is inferred that all bomber units previously stationed in ORANIENBURG have been transferred. It is not believed that the bomber units will be returned to ORANIENBURG in the near future.
