THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C. 91 AND 92, AN AMENDMENT. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The Plava and Doblara power plants on the Soca River were turned over to Yugoslavia by the Peace Treaty with Italy. These plants were formerly operated on behalf of Italian industry, and it was therefore necessary to construct a high-voltage transmission line to carry this power from the western to the eastern framework of power plants. Changes were also necessitated by the fact that electric power in Italy is of 42 cycles whereas it is of 50 cycles in Yugoslavia.
2. The high line, about 80 kilometers in length, was completed in October 1949, and carries power at 110 KV to Ljubljana, where a converter has been built to convert the frequency from 42 to 50 cycles.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.

Doblara and Plava hydro-electric power stations on Soca River

Legend:

- 1 - Dam for hydro-electric power station - Doblara
- 2 - Hydro-electric power station - Doblara
- 3 - Dam for hydro-electric power station - Plava
- 4 - Hydro-electric power station - Plava
- 5 - Cement factory
- 6 - High voltage transmission lines
- 7 - Tunnels for supply of water to turbines
