Date: 13 JUL 1978 By **[REDACTED]**

25X1

1. On 28 December 1950, the barracks installation on the northwestern perimeter of Wurzen (N 52/E 42) seemed to be occupied to capacity. Officers seen there wore artillery and tank insignia on their epaulets. *
2. [REDACTED] every two weeks a laundry in Wurzen received [REDACTED] sets of underwear and shorts, used during athletic exercises. **
3. A total of 120 to 130 new or overhauled trucks was seen in the yard of the motor vehicle repair shop in Wurzen. ***

* [REDACTED] Comment. The barracks installation in Wurzen quarters a tank component of the 8th Gds Weez Div, probably the 20th Gds Weez Regt. [REDACTED] The present report indicates that the units of the regiment were at the post in late December 1950.

** [REDACTED] Comment. [REDACTED] reported from Land Saxony during the winter of 1948 and the spring of 1949. The unit [REDACTED] was listed in the 1948/1949 production plan of the iron works in Leitz as the receiver of two cranes. [REDACTED] possibly assigned to a supply unit. But if so, the exceedingly large number of items to be laundered is doubted.

*** [REDACTED] Comment. Presumably the 54th Central Repair Shop of the CDFG, which was confirmed in Wurzen until 2 September 1950. The shop is located on Lueptitzerstrasse and is primarily engaged in the repair of used motor vehicles, coming from the U.S.S.R. via Brest Litovsk and Frankfurt/Oder, prior to their re-assignment to units.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 13 October 1973 from the Director of Central Intelligence to the Archivist of the United States.
