25X1C

* Comment. These shipments are refrigerator cars and express train coaches sent to the U.S.S.R. as Soviet Zone reparations deliveries. The Soviet-gauge wheel sets sent along will be mounted at the Soviet transfer point while the standard-gauge axles are returned to Germany.

25X1C

** Comment. Eight trains in both directions are scheduled to pass through Guben every day. However, the actual daily average is three or four trains.
