1. According to available information, all jet aircraft which have arrived in the Russian Zone of Germany have come by rail. Between 5 and 28 August 1951, a total of 136 cars loaded with crated aircraft were observed en route from the USSR to the Russian Zone of Germany. It could not be determined how much of the total number of aircraft these 136 cars represent.

2. The following shipments have been observed:

<u>Date</u>	<u>From</u>	<u>To</u>	<u>Number of Cars</u>
5 August	Brest-Litovsk	Koethen	12
8 "	"	Neubrandenburg	21
8 "	"	Velten	20
11 "	"	Neubrandenburg	21
17 "	Frankfurt/Oder	toward the west	15
23 "	"	" " "	27
28 "	"	" " "	20

3. Aircraft crates were usually observed empty on the day after their arrival at the airfield. It was assumed that the aircraft were, therefore, ready for operation one or two days after arrival at the field.
