SOURCE

[Redacted]

The Civil Air Transport Bureau of the Revolutionary Military Council will establish three Aviation Training Schools on 10 February 1952. These schools will be formed by expanding existing training classes established as subsidiary activities of various Civil Air Transport offices for training mechanics and ground personnel. These three schools will be established at Chengtu, Shanghai, and Tientsin. They will be divided into the following departments: communication and signals; meteorology; airplane mechanics; and airfield and air station operation. The schools will prepare to enroll 2,100 students during the current year and complete the training of 4,800 civil air cadres within the next three years.

- 1. [Redacted] Chinese Communist aeronautical engineering training.
