1. Fire destroyed five floors of the manufacturing plant of the HF-Werk, Berlin-Oberschoeneweide, on the 18 January 1952. The flames were extinguished by the fire brigades of the neighboring factories. The main electrical installations of the works were in the burned-out rooms. Sabotage is suspected.
2. The operations of the HF-Werk are being transferred to the Knorr-Bremse firm, in Berlin-Rummelsburg. Only the radio tube production division remains in Oberschoeneweide. In view of the 100 percent increase in the tube production objective for 1952, a considerable enlargement of this division is looked for.
