Comments.

- (1) All the shipments dispatched to Ziltendorf consisted of raw materials for the Foundry Combine East near Puerstenberg/Oder.
- (2) [redacted] a unit of the fighter corps headquarters in Wittenberg; [redacted] the CMB of the fighter regiment in Zerbst; [redacted] a map archive. However, the large amount of ammunition and truck shipments dispatched to this unit in recent months indicates that this assumption is not correct.
- (3) Deliveries by Soviet Zone hydrogenation plants to the U.S.S.R. and returning empty tank cars.
- (4) Grain shuttle trains. [redacted]
- (5) Deliveries of Soviet Zone railroad car factories to the U.S.S.R. and returning standard-gauge wheel sets.
- (6) These shipments are connected with the motor vehicle replacement program which consists in the exchange of used vehicles for new equipment from the U.S.S.R. The eastbound flatcars listed in the present report without data on their load may also have been loaded with used motor vehicles.
- (7) These shipments may have [redacted] consisted of equipment required for the re-electrification of some lines in the Halle railroad district.

- (8) [redacted] this shipment consisted of ammunition for the Lieberose troop training grounds.
- (9) This shipment was probably sent to the uranium mining district in the Harz Mountains.
- (10) A fuel depot of the Fourth Gds. Mech. Army [redacted] is located at Eisenspalterei/Bergwalde.
- (11) Chernyalhovsk is the Soviet designation for Insterburg in East Prussia.
- (12) These standard-gauge wheel sets may be used for the former Germany freight cars which are to be returned by the U.S.S.R. [redacted]

- (13) The data contained in paragraph 1 of the present report again confirm that shipment-record numbers of the 50xxx block are used for fuel shipments, those of the 10xxx block for ammunition shipments, numbers of the 6xx and [redacted] are assigned to grain shuttle trains. Eastbound shipments of used vehicles [redacted]

[REDACTED] 25X1

(14) This shipment continues the delivery of artillery pieces from the U.S.S.R. to Fuerstenwalde. These deliveries have been under way since late April 1952. So far, most of the guns have been consigned to the Volkspolizei. [REDACTED]

25X1

(15) Since late March 1952, only individual tanks have been observed arriving in the Soviet zone of Germany en route from the U.S.S.R. The shipments dispatched to Gotha and Gera were also observed by another source, who, however, stated that these tanks came from Frankfurt/Oder. [REDACTED] From the railroad stations to which these tanks were reportedly dispatched in the reference, it was believed that they were for cadre units of the Volkspolizei. [REDACTED]

25X1

[REDACTED] the shipment of these tanks, [REDACTED] to the Hq 7th Gds Lecz Div, in the Fuerstenwalde-Frankfurt/Oder area. In connection with reference, it may be assumed that this division furnished tanks to the Volkspolizei. The present report mentions that the tanks observed came from Brest Litovsk. This discrepancy between the present report and the reference is unclarified.
