		(3)	The two troop trains from Neustrelitz to Luckenwalde probably carried	
			artillery units of the 9th Cds Tank Div. A troop train	1
	25X1		was previously observed transporting combined artillery unit of the	
			1st Mecz Div to Forst Zinna on 1 August 1952, and therefore it is believed	
	25X1		that, as from February to April 1952, artillery units of the Second Gds Mecz	
			Army will again be retated for firing practices with live annunition to the	
			Justerbog troop training grounds.

		(5)	Another source in the Dobrilugk area had previously reported that six	25X1
			troop trains from Weimar and Leipzig allegedly were unloaded in the above	23/\
			area between 26 and 27 July 1952; and two eastbound troop trains leaving	
			Weimar were observed by enother source on 26 July 1952.

05344			to the Third Shock Army was observed at the Wittenberg rellroad station	25X1
25X1			on 29 July 1952. Several troop	25X1
i			trains mentioned in the reference reports are confirmed in the present	
			report. The statement by the Soviet lieutenant on the assembling of five	
			divisions in the Finsterwalde, Dobrilugk, Oppelhain-Rueckersdorf and Gehren	
			area is given no credence; he probably referred to components of five	
			divisions which participated in the command-post field exercise.	
		(6)	The troop trains possibly carried elements of the unidentified artillery	
		(0)	battalion of the 12th Gas Tank Miv which returned to Neuruppin, A motor	
				25X1
25X1			vehicle of this unit was observed at Altengrabow on 24 July 1952.	23/1
23/1			There is no evidence, however, when these elements were	
			moved to Altengrabow. Components of the 12th Cds Tank My enroute to	
			Altengrabow were observed last on 8 June 1952, and returning from Altengrabow	
			to Neuruppin on 22 June 1952.	25X1
		(7)	It is fairly definitely believed that these trains carried elements of the	
			unidentified artillery brigade of the 34th Arty Div (US), stationed in the	
			southern sector of the Delius Kaserne, Potsdam, from Wildpark to Altengrabow.	
			. It is noticeable, however, that, compared with	25X1

25X1			three troop

		(8)	The train probably carried a unit of the Fourth Cds Mecz Army, possibly	
		101		
			the 312th Gds RL Regt, elements of which were previously at the Lieberose	
			troop training grounds for short-term field practices in mid-June 1952.
