25X1On 7 August 1952surveying work was being done at the former
Jocksdorf glider field near Forst, Lanes were cut into the woods on both sides of
the field. Soil tests were made at five different spots. It was runnored that a
concrete runway was to be constructed. *

25X1

Comment. The former Jocksdorf glider field is about 8.75 km south-southwest of Forst, 1 km southeast of the railroad line leading from Forst to "eisswasser. The adjacent area is similar to the wooded sites in Schorfheide, Buchholz and Mahlwinkel where airfields are also under construction.
