25X1

1. [redacted] Comment. Soviet fuel dumps are located in Frankfurt/oder, Schleife, Valtin and Oberwalde/Eisenspalterei.

25X1

2. [redacted] Comment. Hydrochloric acid is shipped to the U.S.S.R. in these carboy type railroad cars (Topfwagen) which belong to the category of tank cars suitable for the shipment of black products. The fact that these cars were dispatched to Aue indicates that the hydrochloric acid will be used for mining uranium ore.
