MEMORANDUM FOR THE RECORD

SUBJECT: DCI Briefing of CIA Subcommittee of House Appropriations,
27 May 1965, 9 a. m.

1. The Director, accompanied by Mr. Houston, met with the CIA Subcommittee of House Appropriations. Present for the Subcommittee were:

George H. Mahon, Chairman
Frank T. Bow
Glenard P. Lipscomb
Robert L. Michaels, Staff Assistant

2. The Director opened the briefing with a statement on the British newspaper report that there had been a build up of Chinese troops in the South China area; he followed the briefing paper. Mr. Bow noted the statement that the Chinese air force in the area had been doubled and asked what this meant. The Director said this would amount to some 250 planes. Mr. Lipscomb asked if the IL-28s had arrived in North Vietnam, and the Director said two more had arrived, making a total of five. Mr. Mahon asked if it were likely they were going to drop bombs on South Vietnam, and the Director said this is speculative but they could do so; however, he felt the move was more psychological. Mr. Mahon asked if they could not drop a few bombs on Saigon, and the Director said this was possible but there were good air defense arrangements for our sites and for Saigon and said the force was not significant but more of a harassing matter. Mr. Mahon asked if there probably would only be "sneak" operations at the moment, and the Director answered yes. Mr. Bow asked if the Catholics were anticommunist, and the Director said they were.

In answer to a further question from Mr. Bow, the Director said he had no indications that the Catholics were working in any way with the communists although they were violently against Quat.

3. Mr. Lipscomb asked about a CBS broadcast he heard about which stated there were two missile sites near Hanoi and that the United States had established the policy that these would not be bombed. Mr. Lipscomb asked if the Department of State is briefing reporters along this line. The Director said that of course State is always briefing a variety of people, as this is its job, but he knew of no statements about policy on bombing these sites. He noted that Mr. McNamara and the President had said they reserved complete freedom of action in North Vietnam. Therefore, he felt that the CBS program was probably a provocation to see if there was a reaction to their statement on policy.

6. The Director then used the briefing notes to brief the Subcommittee on the Bolivian situation and in closing mentioned the Russian photographic satellite which had been launched at a 51 degree angle which would give it excellent coverage of the United States.
