MEMORANDUM FOR: Acting Director, Imagery Analysis Service
SUBJECT : Comment on IG Recommendation

Ray:

1. We have received the IG Survey Report on NPIC and are in the process of evaluating its recommendations. One of the recommendations was:

"That the Deputy Director for Intelligence instruct the Director, National Photographic Interpretation Center and the Director, Imagery Analysis Service to work together to identify and select a limited number of PI positions and employees for rotational assignments between their career services."

2. In general, I tend to view this recommendation favorably, but before responding I would appreciate hearing your views.
