German Democratic Republic

GDR TRANSACTIONS WITH WEST GERMAN FIRMS (3 pp; German; undated)

25X1X

This 3-page photostated document consists of tables furnishing information on GDR imports from West Germany. The tables are headed as follows: Quantity; item; value in DM [not indicated whether East or West marks — the source comment makes specific reference to West marks]; West German supplier; delivery date; East German enterprise requiring the materials.

RETURN TO CIA LIBRARY

The following items were ordered from West German suppliers: DS [polyphase] generator with 6-megawatt capacity; parts for turbine (appears twice); assembly costs; repair of induction coil for turbogenerator; repair of a 2-megawatt generator; blade material for turbogenerator; spare parts for turbocompressors and turbogenerators; valve cage; repairs on Ljungstroem turbine; a) spare parts, b) assembly of turbines II and III, c) turbine II repair, d) turbine III repair; turbogenerator with 7.5-megawatt capacity; complete aperture fittings for pressure reducing valve; conveying chain with 22-meter [Millimeter ?] links; continuous Eickhoff agitator; turret cutting machine; double-chain conveyer; check of turret hoist; various spare parts for cutting machines; spare parts for power installations and hoists of all Western makes according to specifications to be submitted; compressed-air aftercoolers; screw bits - hollow drills; pneumatic reserve support pipes (appears twice); cable; superheater tubes; repair of a rectifier; repair of three Feuchmotorpump. [Feuch motor pumps ?]; asynchronous motors; heating ~~elements~~ elements for Ljungstroem air heaters; repair of a rectifier; worm gears and wheels; pumpless rectifier casings; rectifier with 360-kilowatt capacity; rectifier casing with combined air and water cooling; miscellaneous materials: ventilation insulation, valve cages, and ~~spins~~ spindles; break-pressure regulators.

Total value of above imports: 1,193,513 DM.
