FDD Abstract [REDACTED]

MISCELLANEOUS RAILROAD INFORMATION (4 pp; German; [REDACTED])
Date of distribution: 30 Oct 52; Date of information: Jun, Jul 52)

25X1A

25X1X

The document consists of four pages ([REDACTED])
[REDACTED] d) containing a heterogeneous mixture of railroad information.

25X1X

The first page contains seven typewritten copies of teletypes. The teletypes cover such items as requests for **forms for material planning** to permit completion of material plans by 14 July 1952; notification that on 2 July 1952 50 persons are to be transported from Burg to Rubeland. The teletype, sent by the Volkspolizei, requests joint quarters for these persons; teletype addressed to the presidents of the RBD's Magdeburg, Greifswald, Erfurt and Dresden, ordering the personnel directors Polche, Buettner, Czanecki and Friedrich and specialist Bornberg for special duty during the period 26 June to 21 July 1952. Another teletype informs the administrative office of the MGS - MPS (Soviet bloc freight and passenger transportation agreement) in Warsaw that during the period between 1 September and 30 November the turn-around time of cars on the Reichsbahn lines ranged from 3 to 19 days. All offices are continually advised to speed return of cars to their home stations.

The second page contains a memorandum received by the Railroad Station Berlin - Lichtenberg on 7 July 1952 and addressed to all offices of the Reichsbahn Division 1. The memo states that railroad guards have been allocated group B ration cards by the Ministry of Trade and Supply. In Berlin the railroad guards will receive group I ration cards to comply with that order.

Page three contains temporary regulations for recording the increased wages of qualified workers and the proper bookkeeping procedure for same.

The last page is a mimeographed copy of an appeal addressed to the personnel of RBD Berlin to participate in a competition to conserve coal. The appeal gives details regarding the prizes to be awarded in this competition.

Foreign language document or a microfilm of it [REDACTED] is obtainable from CIA Library, [REDACTED]
