SOURCE: [Redacted]

1. In 1939 just prior to the German Invasion, there were 10 thousand personnel employed in the PZL Aircraft Factory in Warsaw, working in three shifts. All production was of military aircraft but I do not remember the types. The different departments of the factory were securely segregated and the employees wore different colored badges to identify the departments worked in.

2. [Redacted] where I was employed, personnel was [Redacted] The leader of this team was able to read blueprints and he directed the preparation of parts by his crew.

3. Prior to my employment in this factory my acquaintances and relatives were [Redacted]
