EXPLOITED BY IR

25X1X6

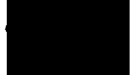

A letter dated 1 Aug 53 from the Bangkok Radio Company, Bangkok, Thailand, advises us that the firm procures various kinds of communications equipment for most of the Thai Government departments. The letter continues by suggesting that our firm might be interested in the fact that the Thai Government "now has a full scheme for installing transmitters in various towns throughout the country". Following is a list of equipment which the letter enclosed and which the writer, Mr. C. H. H. H. H., states are the requirements of the various departments according to information received by his firm:

- (a) Broadcasting transmitter 500 watt up to 5 kw, medium or short waves, remote and local facilities, for 110 V AC, 50/60 cycles.
- (b) CW/phone radio transmitter 50 to 300 watt, crystal and VFO controlled, frequency range 2 to 30 mc for 110 V AC.
- (c) Portable and marine radio telephones of various capacities.
- (d) Beacon transmitter 200-400 watt, frequency 200-400 kc, with remote control.
- (e) VHF, AM and FM transmitter and receivers.
- (f) Radio transceivers both hand-pack and back-pack.
