SUBJECT:

 Kodachrome transparencies (Egypt-Asyut area)

1. We must apologize for the very short deadline on this material. These kodachromes are being used by the source in lectures currently being given. Therefore, please expedite handling and return to GMP Staff no later than 3 January.

2. The source has requested that duplicate slides of slides No. 1, 12, 17, and 18 be prepared. If this is not reasonable to do because of the short deadline, suggest that we leave this up to the field office to arrange commercially.

3. Pencil numbers in the lower left hand corners of the slides are the numbers which refer to the attached caption sheet.
