SOURCE

1. [REDACTED]

- 25X1X6 2. [REDACTED] informed me that because of present currency restrictions, his company does not have the money to purchase US component parts. The company is purchasing these parts from Western Europe and paying for them with copper.
- 3. Hungarian companies are trying to sell Melendez radio condensers, volume controls, and tubes. He said these components can be purchased from Hungary at a cheaper price and also in exchange for copper. However, because they are of antiquated sizes and poorly constructed, none will be purchased.
