- 2. After a careful study of the US aircraft market, we concluded that your company might become one of our principal suppliers provided, of course, that your products, prices, and terms are competitive. Being well acquainted with the needs of our market, we are certain that these needs go far beyond your own beliefs and suppositions.
- 3. We are also willing, and in a position, to introduce your aircraft not only into the Yugoslav market but also into neighboring countries through the Balkan Agreement between us, Greece, and Turkey. We believe we have all the necessary qualifications for this - common mentality of the Balkan peoples, religion etc. Propinquity itself provides servicing and performance guarantees. We would like to draw your attention to the fact that our company is the only one of its kind in the country.
- 4. We believe that the importance of the business we might do calls for discussions with your representatives either here in our country or through a delegate whom we could send to the US.
